INDEX TO VOLUME 22

PAGE

Abbott, M. E., Beattie, W. W., and Ratner, B.: Rare cardiac anomaly..... 508
Abdominal pain of throat infections; J. Brennemann..... 493
Albuminuria, experimental, in rabbit; H. Saito and K. Gondo..... 438
orthostatic, clinical investigations on; H. Saito..... 388
Ammonia dermatitis of gluteal region of infants, etiology and treatment; J. V. Cooke..... 481
Anatomy, recent progress in anatomy, physiology and pathology of childhood; J. B. Holmes..... 61
Aneurysmal dilatation of ductus botalli, congenital; D. M. Dry..... 181
Athrepsia, metabolism studies in infants suffering from chronic nutritional disturbances (arthrepsia); K. Utheim..... 329

Barney, J. D.: Genital tuberculosis in male children..... 565
Beattie, W. W., Ratner, B., and Abbott, M. E.: Rare cardiac anomaly..... 508
Blackfan, K. D., and Little, K.: Clinical and radiographic study of thymus in infants..... 459
Blood cells, red, fragility of, in infectious diseases; R. M. Greenthal and W. S. O'Donnell..... 212
clinical significance of calcium concentration in serum of children and possible errors in its determination; B. Kramer, F. F. Tisdall and J. Howland..... 560
iso-agglutinins in, of new-born; B. B. Jones..... 586
isohemolysins in, with especial reference to blood of new-born; B. B. Jones..... 598
pressure, range and distribution of, in normal children; clinical application of statistical methods to interpretation of deviation from normal average; H. K. Faber and C. A. James..... 7
studies in new-born; morphological; chemical; coagulation; urobilin and bilirubin; W. P. Lucas, B. F. Dearing, H. R. Hoobler, A. Cox, M. R. Jones and F. S. Smyth..... 525
Bonar, B. E., and Grulee, C. G.: Some observations on so-called inanition temperature of new-born..... 44
Book Reviews:
Diseases of Infants and Children; J. P. C. Griffith..... 328
Kompendium der Kinderheilkunde mit besonderer Berücksichtigung der Säuglingskrankheiten; A. Niemann..... 620
Orthopaedics for Practitioners; P. B. Roth..... 221
Principles of Antenatal and Postnatal Child Physiology, Pure and Applied; W. M. Feldman..... 221
Types of Mental Defectives; M. W. Barr and E. F. Maloney..... 104
Bosworth, A. W.: Studies of infant feeding. XV. Calcium of cow's milk in its relation to digestion and absorption of casein; protein curds in stools..... 613
Studies of infant feeding. XIII. Caseins of cow's milk and human milk in their relation to infant feeding; action of rennin on casein..... 193
Studies of infant feeding. XIV. Chemical studies of certain dry milk products used in infant feeding..... 455
Brennemann, J.: Abdominal pain of throat infections..... 493
Bullowa, J. G. M.: Tonsils and scarlet fever..... 29

Calcification of skin in child; J. L. Morse..... 412
Calcium, clinical significance of calcium concentration in serum of children and possible errors in its determination; B. Kramer, F. F. Tisdall and J. Howland..... 560
Capillaries of normal infant; K. M. Mayer..... 381

PAGE

Carter, W. E.: Medullary malignancies of suprarenal gland..... 244
Cerebrospinal fluid, rapid clinical method for determination of reducing substance in cerebrospinal fluid: the methylene blue method; M. Kasahara and S. Hattori..... 218
Cheney, G. W. H., and Regan, J. C.: Tuberculous meningitis with dry spinal subarachnoid space due to diffuse tubercle infiltration of spinal meninges 516
Cooke, J. V.: Etiology and treatment of ammonia dermatitis of gluteal region of infants..... 481
and Jeans, P. C.: Incidence of hereditary syphilis..... 402
Corpus striatum lesions in childhood, with report of clinical cases illustrating various syndromes; B. Crothers..... 145
Cox, A., and others: Blood studies in new-born; morphological; chemical; coagulation; urobilin and bilirubin..... 525
Crothers, B.: Lesions of corpus striatum in childhood, with report of clinical cases illustrating various syndromes..... 145

Davison, W. C., and Rosenthal, L. V.: Bacteriological study of fecal flora of infants and children (the lack of association of nutritional disorders with a so-called "putrefactive" intestinal flora)..... 284
Dearing, B. F., and others: Blood studies in new-born; morphological; chemical; coagulation; urobilin and bilirubin..... 525
Denzer, B. S.: Size of infantile palate..... 471
Dermatitis, etiology and treatment of ammonia dermatitis of gluteal region of infants; J. V. Cooke..... 481
Diphtheria, degree of immunity to diphtheria insured by a negative Schick test; W. H. Park..... 1
Dry, D. M.: Congenital aneurysmal dilatation of ductus botalli..... 181
Ductus botalli, congenital aneurysmal dilatation of; D. M. Dry..... 181
Dunham, E. C.: Peritonitis as a complication of scarlet fever..... 307

Edwards, D. J., and Wilson, M. G.: Vital capacity of lungs and its relation to exercise tolerance in children with heart disease; standards for normal vital capacity for children; lung capacity in certain intrathoracic conditions..... 443
Emerson, P. W., and Green, H.: Vital capacity of lungs of children..... 202
Esophagus, congenital absence of middle portion; F. C. Neff..... 57
Eustis, R. S., Kerr, W. J., and White, P. D.: Congenital heart block..... 299

Faber, H. K., and James, C. A.: Range and distribution of blood pressures in normal children; clinical application of statistical methods to interpretation of deviation from normal average..... 7
Fales, H. L., and Holt, L. E.: Food requirements of children. II. Protein requirements 371
Feces, bacteriological study of fecal flora of infants and children (the lack of association of nutritional disorders with a so-called "putrefactive" intestinal flora); W. C Davison and L. V. Rosenthal..... 284
studies of infant feeding; calcium of cow's milk in its relation to digestion and absorption of casein; protein curds in stools; A. W. Bosworth... 613
Fever, intermitting, in child, due to mastoiditis, diagnosis by positive roentgen-ray findings; J. S. Leopold..... 521
Food requirements of children; protein requirement; L. E. Holt and H. L. Fales 371

Gelston, C. F.: Etiology of hemorrhagic diseases of new-born..... 351
Genital tuberculosis in male children; J. D. Barney..... 565
Genito-urinary tract, review of literature of 1920 on genito-urinary conditions in children; L. W. Hill..... 417
Goiter, congenital, report of 4 cases; W. B. Porter and R. A. Vonderlehr.. 477
Golann, D. L., and Gordon, M. B.: Traumatic diaphragmatic hernia in girl 8 years of age..... 579
Gondo, K., and Saito, H.: Experimental albuminuria in rabbit..... 438
Gordon, M. B., and Golann, D. L.: Traumatic diaphragmatic hernia in girl 8 years of age..... 579

PAGE

Gray, H.: Ideal tables for size and weight of private school boys; part II.. 272
and Jacomb, W. J.: Size and weight in one hundred and thirty-six boarding school boys (Groton)..... 259
Green, H., and Emerson, P. W.: Vital capacity of lungs of children..... 202
Greenthal, R. M., and O'Donnell, W. S.: Fragility of red blood corpuscles in infectious diseases..... 212
Grulee, C. G., and Bonar, B. E.: Some observations on so-called inanition temperature of new-born..... 44

Hattori, S., and Kasahara, M.: Rapid clinical method for determination of reducing substance in cerebrospinal fluid: the methylene blue method. 218
Heart anomaly; cor triloculare biventriculare in mirror-picture dextrocardia with persistent omphalo-mesenteric bay, right aortic arch and pulmonary artery forming descending aorta; B. Ratner, M. E. Abbott and W. W. Beattie..... 508
block, congenital; P. D. White, R. S. Eustis and W. J. Kerr..... 299
disease, vital capacity of lungs and its relation to exercise tolerance in children with heart disease; standards for normal vital capacity for children; lung capacity in certain intrathoracic conditions; M. G. Wilson and D. J. Edwards..... 443
Helmholz, H. F.: Modes of infection in pyelitis..... 606
Hemorrhagic disease of new-born, etiology of; C. F. Gelston..... 351
Hernia, diaphragmatic, traumatic, in girl 8 years of age; M. B. Gordon and D. L. Golann..... 579
Hess, A. F., and Unger, L. J.: An interpretation of seasonal variation of rickets 186
Hill, L. W.: Review of literature of 1920 on genito-urinary conditions in children 417
Holmes, J. B.: Recent progress in anatomy, physiology and pathology of childhood 61
Holt, L. E., and Fales, H. L.: Food requirements of children. II. Protein requirement 371
Hoobler, H. R., and others: Blood studies in new-born; morphological; chemical; coagulation; urobilin and bilirubin..... 525
Howland, J., and Kramer, B.: Calcium and phosphorus in the serum in relation to rickets..... 105
Kramer, B., and Tisdall, F. F.: Clinical significance of calcium concentration in serum of children and possible errors in its determination. 560
Kramer, B., and Tisdall, F. F.: Infantile tetany..... 431

Infant feeding, studies of infant feeding; calcium of cow's milk in its relation to digestion and absorption of casein; protein curds in stools; A. W. Bosworth..... 613
feeding; casein of cow's milk and human milk in their relation to infant feeding; action of rennin on casein; A. W. Bosworth..... 193
feeding; chemical studies of certain dry milk products used in infant feeding; A. W. Bosworth..... 455
Infectious diseases, fragility of red blood corpuscles in; R. M. Greenthal and W. S. O'Donnell..... 212
Intestine, bacteriological study of fecal flora of infants and children (the lack of association of nutritional disorders with a so-called "putrefactive" intestinal flora); W. C. Davison and L. V. Rosenthal..... 284
Iso-agglutinins in blood of new-born; B. B. Jones..... 586
Isohemolysins in human blood, with especial reference to blood of newborn; B. B. Jones..... 598

Jacomb, W. J., and Gray, H.: Size and weight in one hundred and thirty-six boarding school boys (Groton)..... 259
James, C. A., and Faber, H. K.: Range and distribution of blood pressures in normal children; clinical application of statistical methods to interpretation of deviation from normal average..... 7
Jeans, P. C., and Cooke, J. U.: Incidence of hereditary syphilis..... 402

PAGE

Jones, B. B.: Iso-agglutinins in blood of new-born 586
Isohemolysins in human blood, with especial reference to blood of new-born 598
Jones, M. R., and others: Blood studies in new-born; morphological; chemical; coagulation; urobilin and bilirubin 525

Kasahara, M., and Hattori, S.: Rapid clinical method for determination of reducing substance in cerebrospinal fluid: the methylene blue method. 218
Keratomalacia in infants, with a report of 4 cases; S. G. Ross 232
Kerr, W. J., White, P. D., and Eustis, R. S.: Congenital heart block 299
Kramer, B., and Howland, J.: Calcium and phosphorus in the serum in relation to rickets 105
Tisdall, F. F., and Howland, J.: Clinical significance of calcium concentration in serum of children and possible errors in its determination .. 560
Tisdall, F. F., and Howland, J.: Infantile tetany 431

Leopold, J. S.: Intermitting fever in child due to mastoiditis, diagnosis by positive roentgen-ray findings 521
Little, K., and Blackfan, K. D.: Clinical and radiographic study of thymus in infants 459
Lucas, W. P., and others: Blood studies in new-born; morphological; chemical; coagulation; urobilin and bilirubin 525
Lungs, vital capactiy of lungs and its relation to exercise tolerance in children with heart disease; standards for normal vital capacity for children; lung capacity in certain intrathoracic conditions; M. G. Wilson and D. J. Edwards 443
vital capacity of, of children; P. W. Emerson and H. Green 202

Malnutrition, severe infantile malnutrition; energy metabolism with report of new series of cases; F. B. Talbot 358
Mason, H. H.: Records regarding absence and their causes in Lincoln School of Teachers College 500
Mastoiditis, intermitting fever in child due to mastoiditis, diagnosis by positive roentgen-ray findings; J. S. Leopold 521
Mayer, K. M.: Capillaries of normal infant 381
Meningitis, tuberculous, with dry spinal subarachnoid space due to diffuse tubercle infiltration of spinal meninges; J. C. Regan and G. W. H. Cheney 516
Metabolism, severe infantile malnutrition; energy metabolism with report of new series of cases; F. B. Talbot 358
studies in infants suffering from chronic nutritional disturbances (athrepsia); K. Utheim 329
Milk, demonstration of food proteins in human breast milk by anaphylactic experiments on guinea-pigs; their probable relationship to certain diseases of nursing infant; W. R. Shannon 223
dry, chemical studies of certain dry milk products used in infant feeding; A. W. Bosworth 455
studies of infant feeding; calcium of cow's milk in its relation to digestion and absorption of casein; protein curds in stools; A. W. Bosworth ... 613
studies of infant feeding; caseins of cow's milk and human milk in their relation to infant feeding; action of rennin on casein; A. W. Bosworth 193
Morse, J. L.: Calcification of skin in child 412

Neff, F. C.: Congenital absence of middle portion of esophagus 57
Neurology, review of literature for 1920; L. J. Pollock 310
Noback, G. J.: Contribution to topographic anatomy of thymus gland, with particular reference to its changes at birth and in period of new-born 120

O'Donnell, W. S., and Greenthal, R. M.: Fragility of red blood corpuscles in infectious diseases 212

Palate, size of infantile palate; B. S. Denzer 471
Park, W. H.: Degree of immunity to diphtheria insured by a negative Schick test 1
Pathology, recent progress in anatomy, physiology and pathology of childhood; J. B. Holmes 61

PAGE

Peritonitis as a complication of scarlet fever; E. C. Dunham..... 307
Physiology, recent progress in anatomy, physiology and pathology of childhood; J. B. Holmes..... 61
Pollock, L. J.: Review of literature for 1920 on neurology of children..... 310
Porter, W. B., and Vonderlehr, R. A.: Congenital goiter, 4 cases..... 477
Proteins, demonstration of food proteins in human breast milk by anaphylactic experiments on guinea-pigs; their probable relationship to certain diseases of nursing infant; W. R. Shannon..... 223
requirement of children; L. E. Holt and H. L. Fales..... 371
Pyelitis, modes of infection in; H. F. Helmholz..... 606
Pyloric stenosis, a further contribution; L. W. Sauer..... 166

Rachitis, calcium and phosphorus in serum in relation to rickets; J. Howland and B. Kramer..... 105
interpretation of seasonal variation; A. F. Hess and L. J. Unger..... 186
Ratner, B., Abbott, M. E., and Beattie, W. W.: Rare cardiac anomaly.... 508
Regan, J. C., and Cheney, G. W. H.: Tuberculous meningitis with dry spinal subarachnoid space due to diffuse tubercle infiltration of spinal meninges 516
Rosenthal, L. V., and Davison, W. C.: Bacteriological study of fecal flora of infants and children (the lack of association of nutritional disorders with a so-called "putrefactive" intestinal flora)..... 284
Ross, S. G.: Nutritional keratomalacia in infants, with a report of 4 cases. 232

Saito, H.: Clinical investigations on orthostatic albuminuria..... 388
and Gondo, K.: Experimental albuminuria in rabbit..... 438
Sauer, L. W.: Further contribution to study of pyloric stenosis..... 166
Scarlet fever and tonsils; J. G. M. Bullowa..... 29
complicated by peritonitis; E. C. Dunham..... 307
Schick test, degree of immunity to diphtheria insured by a negative Schick test; W. H. Park..... 1
School absences, some records regarding absences and their causes in Lincoln School of Teachers College; H. H. Mason..... 500
boys, ideal tables for size and weight of private school boys; H. Gray 272
boys, size and weight in 136 boarding school boys (Groton); H. Gray and W. J. Jacomb..... 259
Shannon, W. R.: Demonstration of food proteins in human breast milk by anaphylactic experiments on guinea-pigs; their probable relationship to certain diseases of nursing infant..... 223
Size and weight of private school boys; ideal tables for; H. Gray..... 272
and weight in 136 boarding school boys (Groton); H. Gray and W. J. Jacomb..... 259
Skin, calcification of, in child; J. L. Morse..... 412
Smyth, F. S., and others: Blood studies in new-born; morphological; chemical; coagulation; urobilin and bilirubin..... 525
Suprarenals, medullary malignancies of, with report of cases; W. E. Carter 244
Syphilis, hereditary, study of incidence of; P. C. Jeans and J. V. Cooke.... 402

Talbot, F. B.: Severe infantile malnutrition; energy metabolism with report of new series of cases..... 358
Temperature, so-called inanition temperature of new-born; C. G. Grulee and B. E. Bonar..... 44
Tetany, infantile; B. Kramer, F. F. Tisdall, and J. Howland..... 431
Throat, abdominal pain of throat infections; J. Brennemann..... 493
Thymus, clinical and radiographic study of thymus in infants; K. D. Blackfan and K. Little..... 459
contribution to topographic anatomy of, with particular reference to its changes at birth and in period of new-born; G. J. Noback..... 120
Tisdall, F. F., Howland, J., and Kramer, B.: Clinical significance of calcium concentration in serum of children and possible errors in its determination..... 560
Howland, J., and Kramer, B.: Infantile tetany..... 431
Tonsils and scarlet fever; J. G. M. Bullowa..... 29
Tuberculosis, genital, in male children; J. D. Barney..... 565

PAGE

Tumors, medullary malignancies of suprarenal gland, with report of cases; W. E. Carter 244

Unger, L. J., and Hess, A. F.: An interpretation of seasonal variation of rickets 186
Utheim, K.: Metabolism studies in infants suffering from chronic nutritional disturbances (athrepsia) 329

Vital capacity of lungs and its relation to exercise tolerance in children with heart disease; standards for normal vital capacity for children; lung capacity in certain intrathoracic conditions; M. G. Wilson and D. J. Edwards 443
capacity of lungs of children; P. W. Emerson and H. Green 202
Vonderlehr, R. A., and Porter, W. B.: Congenital goiter 477

White, P. D., Eustis, R. S., and Kerr, W. J.: Congenital heart block 299
Wilson, M. G., and Edwards, D. J.: Vital capacity of lungs and its relation to exercise tolerance in children with heart disease; standards for normal vital capacity for children; lung capacity in certain intrathoracic conditions 443

Thirty cents each will be paid for the following issues of the AMERICAN JOURNAL OF DISEASES OF CHILDREN: January, 1913; February, March, November and December, 1914; January and August, 1915; January, 1918; March and April, 1919. Address to AMERICAN MEDICAL ASSOCIATION, 535 North Dearborn Street, Chicago, Ill.
